| | rifles arrived in late January 1950. The railroad cars had Czech inecripti and came from Breslau (P 52/C hl). They were unloaded by women internees. | ons | | | |
| 5: | No other military units were stationed in Leszno. | | | | |
| 6. | In late February 1950, the barracks installation in Leszno, situated on the highway to Osieczna (P 52/X 10), quartered Polish troops. They often marched from the installation in two or three columns of 120 to 130 soldiers each. Women internees employed as charwomen and kitchen helpers in the installation stated positively that the troops were infantrymen, allegedly of battalion strength. About 90 horses were observed with the unit. (3) | | | | |
| 7. | A horse-drawn artillery unit was sean moving through Leszno in February 1950. The unit had eight rather short barreled guns on solid tires. Each gun was attached to a limber drawn by four horses. an artillery unit was also located in Leszno, and was separate from the infantry unit. | 50X1-HUM 50X1-HUM | | | |
| 8. | No Soviet soldiers or vehicles were seen in Leszno. | | | | |
| (1) | Comment. | 50X1-HUM | | | |
| (2) | The information indicates that the unit may have been a training battalton of an infantry regiment. Poland possibly received infantry arms from Czech industry which is known to manufacture light infantry arms. The information supports the conclusion that the unit was only a battalion. | | | | |
